

QUALITY IS KEY

HIGH QUALITY FINISH, DURABLE MATERIALS, ERGONOMIC CONTROL LAYOUT, AND EXCEPTIONAL COMFORT AND VISIBILITY FROM THE DRIVER'S SEAT.

This is probably why there are more than 500,000 Deutz-Fahr tractors in operation today, including around 300,000 in Germany – which is an extremely demanding market.

Farmers and contractors want economical, reliable machines that are simple and efficient to operation and that make them be more profitable.

That's why Deutz-Fahr concentrates on the four essentials – powerful and economical engines, seamlessly functioning transmissions, maximum hydraulic capacity, and comfortable cabs with intuitive controls.

DEUTZ  FAHR

- POWER
- EFFICIENCY
- PRODUCTIVITY

Deutz-Fahr supplies farmers and contractors with a complete range of tractors designed to combine contemporary style with advanced engineering.

Each machine is built with operator comfort in mind, featuring ergonomic controls, spacious cabins, and technology that makes long days in the field more productive.

Modern, fuel-efficient engines provide the power needed for heavy workloads while keeping efficiency and reliability at the forefront.

ATTACHMENTS TO GET THE JOB DONE

Linder Turf & Tractor proudly sells and services Pöttinger and Artex attachments, giving customers access to reliable tools built for productivity. Our team is trained to provide full support, ensuring your equipment stays running at its best.

MODEL	ENGINE	CYLINDER DISPLACEMENT	RATED GROSS HP	TRANSMISSION	BASE WEIGHT	MAX. WEIGHT	HYDRAULICS	VALVES
